Kartavya Soni

5629 Pacific Blvd, Boca Raton, Florida 33433
(571) 479-9117 | ksoni2024@fau.edu | LinkedIn: kartavyasoni8

"Analytical and results-driven Computer Science grad student with practical experience in AI, ML, and Data Science. Proficient in Python, SQL and modern ML frameworks, with a proven ability to develop predictive models and data-driven solutions. Eager to contribute to innovative teams by building intelligent systems that solve real-world challenges."

Relevant Skills

- **Languages:** Python, JavaScript, SQL, R (basic)
- **Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, TensorFlow, Keras, OpenCV.
- **Tools:** Tableau, Power BI, Jupyter, VS Code, Git, AWS, MySQL, Microsoft Office Suite.
- **Soft Skills:** Communication, Leadership, Problem-Solving, Critical Thinking, Teamwork, Decision Making, Adaptability

Education

MSc in Computer Science — ***Aug 2024 - May 2026***
Florida Atlantic University — *Boca Raton, Florida, USA*
GPA: 3.95

Coursework

- Intro to Data Science
- Python for Data Science
- Database Systems
- Data Mining
- Machine Learning
- Big Data Analytics
- Deep Learning
- Natural Language Processing
- Computer Vision
- Reinforcement Learning
- Artificial Intelligence
- Cloud Computing

Relevant Experience

Data Science Intern — ***Jan 2024 - Apr 2024***
Unified Mentor — *Gurugram, Haryana, India*

- Conducted EDA, reducing processing time by 20%.
- Developed predictive models with 95% accuracy for predicting loan default risks.
- Improved risk assessment efficiency by 35% with data-driven insights.
- Provided data-driven insights, speeding up lending decisions by 25%.

Projects

Loan Meter: AI-Driven Loan Approval System

"Built and deployed a predictive pipeline that achieved 84% accuracy in loan approval decisions. Used grid search and feature selection techniques to improve model interpretability and fairness."

FAA Bird Strike Analytics Dashboard

"Leveraged FAA data to analyze over 100K bird strike reports using Python and Tableau. Created visualizations highlighting seasonal risk zones and aircraft impact probabilities."

Amazon Sales Performance Engine

"Performed advanced analytics and time series forecasting on Amazon data (2018–2023). Discovered a 28% surge in Q4 sales and built a KPI tracking dashboard in Power BI."

Certificates

NumPy Essential Training – LinkedIn Learning	Dec 2024
Pandas Essential Training – LinkedIn Learning	Nov 2024
Machine Learning – Stanford University, Coursera	Aug 2024

Leadership & Volunteering

Student Governor — ***May 2025 - Apr 2026***
Florida Atlantic University, Broward Campuses — *Davie, Florida, USA*

- Represent 5,000+ students across three campuses as the elected Student Governor for Broward Campuses.
- Lead initiatives related to policy advocacy, event management, and student engagement.
- Collaborate with university administrators and oversee an SG budget to support student services and activities.
- Designed and implemented a digital feedback system, improving participation and satisfaction.
